Dated: 20.12.2020

Dear *Dr. Praful,*

You are aware that Ministry of Housing and Urban Affairs (MoHUA) initiated Global Housing Technology Challenge India (GHTC-India) in January 2019 to enable the paradigm shift in the construction sector in the country. Under this, Construction Technology India (CTI) – 2019: 1st Biennial Expo-cum-Conference was inaugurated by Hon'ble Prime Minister on 2nd March 2019. The PM declared the year 2019-20 as the 'Construction Technology Year' to promote innovative and alternate technologies at a large scale in the country.

2. Subsequently, out of 54 globally best proven technologies identified through GHTC-India, six distinct technologies have been selected for construction of six Light House Projects (LHPs) at Indore, Rajkot, Chennai, Ranchi, Agartala and Lucknow. I am pleased to inform you that Foundation Stones of these LHPs will be jointly laid by Hon'ble Prime Minister through Video Conference and by the concerned Hon'ble Chief Minister from their respective sites on **1st January 2021 from 11:00 AM onwards.**

3. Accelerator Affordable Sustainable Housing Accelerators- India (ASHA-India), a sub-component of GHTC-India aims to promote domestic research and entrepreneurship by providing Incubation and Acceleration support to potential future technologies that are not yet market ready or market ready respectively. Under ASHA-India, applications were invited from domestic Potential Future Technologies of Pre & Post Prototype categories having a working and viable product that requires acceleration to mainstream their product in the market.

4. It is my pleasure to inform you that your organisation M/s 'Prashak Techno Enterprises Pvt. Ltd.' has been selected as Winner for getting **Acceleration Support** under the Post-Prototype Category of ASHA-India. Your organisation will be felicitated in this event. The minute to minute program for the event is attached herewith for your kind reference. The details of VC link and password will be shared with you in due course of time.

5. In this regard, I cordially invite you to be a part of this prestigious event through VC and witness the 'Technology Transition Movement' in the construction sector on **1st January 2021 from 11:00 AM onwards.** This significant move will usher the world's best innovative construction technologies to get adapted, mainstreamed and scaled up in the wake of a Self-Reliant India addressing the need of Housing for All.

With regards,

Yours Sincerely,

(Amrit Abhijat)
